INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities and the major fund of AXL Academy, component unit of Aurora Public Schools, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the basic financial statements of AXL Academy, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of AXL Academy as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters (Required Supplementary Information)

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

AXL Charter School
Management's Discussion and Analysis
Fiscal Year Ending June 30, 2016

As management of AXL Charter School, we offer readers of AXL's basic financial statements this narrative and analysis of the financial activities of the School, for the year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information provided in the accompanying financial statements.

Financial Highlights

The year ended June 30, 2016, was the eighth year of operations for the School. Net position (deficit) amounted to (\$5,566,342) and (\$5,524,571) as of June 30, 2016 and 2015, respectively.

The activities of the School are funded primarily by tax revenue received under the State School Finance Act (the Act). Tax revenue for the year ended June 30, 2016 from Per Pupil Revenue was \$3,833,458 (which includes \$68,316 of Preschool PPR) up from \$3,384,251 for the year ended June 30, 2015.

Overview of Financial Statements

This discussion and analysis are intended to serve as an introduction to AXL's basic financial statements. The basic statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of AXL's finances in a manner similar to a private-sector business.

The statement of net position presents information on all AXL's assets and liabilities, and deferred inflows and outflows, with the difference being reported as net position. Over time, the increases or decreases in net position may serve as a useful indicator of whether the financial position of AXL is improving or deteriorating.

The statement of activities presents information showing how AXL's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future periods (for example, salaries and benefits earned but unpaid as of year-end).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal

requirements. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of AXL's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The School maintains one governmental fund – its General Fund.

The School adopts an annual budget for its General Fund. A budgetary comparison has been provided for the General Fund in the required supplementary information to demonstrate compliance with the budget.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Government-wide Financial Analysis

As noted previously, net position may serve over time as a useful indicator of the School's financial position. As of June 30, 2016, the School's net position was in a deficit position of (\$5,566,342).

Net investment in capital assets was (\$179,275) and (\$185,714) as of June 30, 2016 and 2015, respectively. The School had an unrestricted net position of (\$5,518,067) and (\$5,458,857) as of June 30, 2016 and 2015, respectively. This large negative balance is the result of the adoption of GASB 68 which requires that the School report its proportionate share of the School Division Trust Fund (SDTF) liability – a pension fund administered by the Public Employees' Retirement Association of Colorado (PERA). The School's portion of this liability is \$6,059,445, as measured by the December 31, 2015 audit of PERA. Net position as of June 30, 2016 and 2015 was as follows:

STATEMENT OF NET POSITION	2015-2016	2014-2015
ASSETS		
Cash	207,159	\$48,386
Grants Receivable & Accounts Receivable	3,544	77,658

Financial Analysis of AXL's Funds

Governmental Fund

As of June 30, 2016, the School had one governmental fund, the General Fund. The General Fund is considered a major fund and is used to account for the School's general operations. During the eighth year of operations, the School's General Fund ended the fiscal year with a fund balance of \$136,906.

General Fund Budgetary Highlights

AXL budgeted for General Fund expenditures of \$4,397,038 for the year ended June 30, 2016. Actual expenditures were \$4,253,552.

There was a budget amendment during the year, which largely reflected a decrease in per pupil revenue, mill levy, tuition and fees, grants and capital construction revenues, and a corresponding decrease in expected salaries and purchased services.

Capital Asset and Debt Administration

Capital asset activity is described in Note 3 to the financial statements and consists of leasehold improvements and equipment related to the School's expansion.

As described in Note 4 to the financial statements, the School, through the Building Corporation, has been the recipient of three loans and made scheduled debt payments on two loans. The School is in the process of extending the maturity of the loans from the Charter Schools Development Corporation and the Mile High Community Loan Fund for an additional five years.

As described in Note 7 to the financial statements, the School, through the Building Corporation, rents the facility from an unrelated party.

Economic Factors and Next Year's Budget

The primary factor driving the budget for the School is student enrollment. Funded Pupil Count (FPC) for the 2015-2016 school year was 516.5, plus an additional 9 Early Childhood Education (ECE) FPC. The FPC projected for the 2016-2017 school year is 560, plus an additional 13.5 ECE FPC. This is a major factor used in preparing the School's budget for the fiscal year 2016-2017.

Requests for Information

This financial report is designed to provide a general overview of AXL Academy's finances for all those with an interest in the School's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the school:

AXL ACADEMY

STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCE
GOVERNMENTAL FUND
Year Ended June 30, 2016

	GENERAL
REVENUES	
Local Sources	\$ 4,174,888
State Sources	259,700
Federal Sources	2,095
 TOTAL REVENUES	 4,436,683
EXPENDITURES	
Instruction	2,287,900
Supporting Services	1,674,225
Debt Service	
Principal	216,882
Interest	74,545
 TOTAL EXPENDITURES	 4,253,552
 NET CHANGE IN FUND BALANCE	 183,131
FUND BALANCE, Beginning	(46,225)
FUND BALANCE, Ending	\$ 136,906

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Net Change in Fund Balance of the Governmental Fund	\$ 183,131
Capital outlays to purchase or construct capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are capitalized in the statement of net position and are allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This amount represents depreciation expense in the current year.	(84,057)
Repayment of debt principal is an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position and does not affect the statement of activities.	216,882
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. This amount represents the change in the net pension liability (\$374,000), pension-related deferred outflows of resources \$330,746, and pension-related deferred inflows of resources (\$314,473) in the current year.	(357,727)
Change in Net Position of Governmental Activities	\$ (41,771)

The accompanying notes are an integral part of the financial statements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The AXL Academy (the “School”) was organized pursuant to the Colorado Charter Schools Act to form and operate a charter school in Aurora Public Schools (the “District”). The School began operations in 2007.

The accounting policies of the School conform to generally accepted accounting principles as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following is a summary of the more significant policies.

Reporting Entity

The financial reporting entity consists of the School, organizations for which the School is financially accountable, and organizations that raise and hold economic resources for the direct benefit of the School. All funds, organizations, institutions, agencies, departments and offices that are not legally separate are part of the School. Legally separate organizations for which the School is financially accountable are considered part of the reporting entity. Financial accountability exists if the School appoints a voting majority of the organization’s governing board and is able to impose its will on the organization, or if the organization has the potential to provide benefits to, or impose financial burdens on, the School.

Based on the application of this criteria, the School includes the AXL Building Corporation (the “Corporation”) within its reporting entity. The Corporation is a Colorado non-profit entity organized exclusively for charitable or educational purposes. Currently, the Corporation is a party in the School’s facility lease and leasehold improvement loans. The Corporation has no financial balances or transactions outside of those reported by the School, and therefore, is not reported separately in the financial statements. The Corporation does not issue separate financial statements.

The School is a component unit of the District. The School’s charter was authorized by the District and the majority of the School’s funding is provided by the District.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all activities of the School. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported in a single column.

The statement of activities demonstrates the degree to which the direct expenses of the given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to students or others who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Unrestricted revenues not properly included among program revenues are reported instead as *general revenues*. Internally dedicated resources are reported as general revenues rather than as program revenues.

Major individual funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collected within the current year or soon enough thereafter to pay liabilities of the current year. For this purpose, the School considers revenues to be available if they are collected within 60 days of the end of the current year. Intergovernmental revenues, grants, and interest associated with the current year are considered to be susceptible to accrual and so have been recognized as revenues of the current year. All other revenues are considered to be measurable and available only when cash is received by the School. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

When both restricted and unrestricted resources are available for a specific use, it is the School's policy to use restricted resources first, and the unrestricted resources as they are needed.

The School reports the following major governmental fund:

General Fund - This fund is the general operating fund of the School. It is currently used to account for all financial activities of the School.

Assets, Liabilities and Net Position/Fund Balance

Cash and Investments - Investments are reported at fair value. The local government investment pool is valued at the net asset value per share, which is measured using amortized cost.

Receivables - All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Deposits - The School has provided a security deposit for an operating lease (See Note 7).

Capital Assets - Capital assets are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the acquisition value on the date of donation.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Assets, Liabilities and Net Position/Fund Balance** (Continued)

Capital assets are amortized or depreciated using the straight-line method over the life of the related lease agreement or the estimated useful lives, as follows:

Leasehold Improvements	12 years
Equipment	3 - 10 years

Accrued Salaries and Benefits - Salaries and benefits of certain contractually employed personnel are paid over a twelve month period from August to July, but are earned during a school year of approximately nine to ten months. The salaries and benefits earned, but unpaid, are reported as a liability of the General Fund.

Unearned Revenues - Unearned revenues represent resources received by the School before it has a legal claim to them, including tuition and fees.

Compensated Absences - Employees of the School are provided with eight days of personal/sick leave annually. At the end of each school year, unused leave will be carried over to the subsequent school year, up to three days. Unused leave in excess of three days is eligible for reimbursement on the final paycheck of the year at the rate of \$90 per day. The School does not reimburse or otherwise compensate employees for any unused personal/sick leave at separation of employment. Therefore, no liability is reported in the financial statements for these compensated absences.

Long-Term Debt - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. In the fund financial statements, governmental funds recognize the face amount of debt issued as other financing sources. Issuance costs, whether or not withheld from the debt proceeds, are reported as current expenses or expenditures.

Pensions - The School participates in the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position, and additions to and deductions from the SDTF's fiduciary net position have been determined using the economic resources measurement focus and the accrual basis of accounting, the same basis of accounting used by the SDTF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position/Fund Balance - In the government-wide and fund financial statements, net position and fund balance are restricted when constraints placed on the use of resources are externally imposed. The Board of Directors is authorized to establish a fund balance commitment through passage of a resolution, and may assign fund balances to a specific purpose through an informal action.

The School has not established a formal policy for its use of restricted and unrestricted fund balances. However, if both restricted and unrestricted fund balances are available for a specific purpose, the School uses restricted fund balance first, followed by committed, assigned, and unassigned balances.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risk Management

The School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The School carries commercial insurance for these risks of loss.

NOTE 2: CASH AND INVESTMENTS

Cash and investments at June 30, 2016, consisted of the following.

Deposits	\$ 205,980
Investments	<u>1,179</u>
Total	<u><u>\$ 207,159</u></u>

Deposits

The Colorado Public Deposit Protection Act (PDPA) requires all local government entities to deposit cash in eligible public depositories. Eligibility is determined by State regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. The financial institution is allowed to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102% of the uninsured deposits.

Investments

The School is required to comply with State statutes which specify investment instruments meeting defined rating, maturity, and concentration risk criteria in which local governments may invest, which include the following. State statutes do not address custodial risk.

- Obligations of the United States and certain U.S. Agency securities
- Certain international agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Commercial paper
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts
- Local government investment pools

Interest Rate Risk - State statutes generally limit investments to an original maturity of five years unless the governing board authorizes the investment for a period in excess of five years.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 2: CASH AND INVESTMENTS (Continued)

Investments (Continued)

Credit Risk - State statutes limit most investments to those with certain ratings from nationally recognized statistical rating organizations, depending on the type of investment.

Concentration of Credit Risk - State statutes do not limit the amount the School may invest in one issuer, except for corporate securities.

Local Government Investment Pool - At June 30, 2016, the School had \$1,179 invested in the Colorado Local Government Liquid Asset Trust (Colotrust), an investment trust established for local government entities in Colorado to pool surplus funds for investment purposes. The Colorado Division of Securities administers and enforces the requirements of creating and operating Colotrust. Colotrust operates in conformity with the Securities and Exchange Commission's Rule 2a-7, with each share valued at \$1. Colotrust is rated AAAM by Standard and Poor's. Investments of Colotrust are limited to those allowed by State statutes. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. The custodian's internal records identify the investments owned by the participating governments.

NOTE 3: CAPITAL ASSETS

Changes in capital assets for the year ended June 30, 2016, are summarized below.

	<u>Balances</u> <u>6/30/15</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balances</u> <u>6/30/16</u>
Governmental Activities				
Capital Assets, Being Depreciated				
Leasehold Improvements	\$ 1,656,109	\$ -	\$ -	\$ 1,656,109
Equipment	<u>321,946</u>	<u>-</u>	<u>-</u>	<u>321,946</u>
Total Capital Assets, Being Depreciated	<u>1,978,055</u>	<u>-</u>	<u>-</u>	<u>1,978,055</u>
Less Accumulated Depreciation				
Leasehold Improvements	(756,733)	(74,948)	-	(831,681)
Equipment	<u>(297,675)</u>	<u>(9,109)</u>	<u>-</u>	<u>(306,784)</u>
Total Accumulated Depreciation	<u>(1,054,408)</u>	<u>(84,057)</u>	<u>-</u>	<u>(1,138,465)</u>
Governmental Activities Capital Assets, Net	<u>\$ 923,647</u>	<u>\$ (84,057)</u>	<u>\$ -</u>	<u>\$ 839,590</u>

Depreciation expense was charged to the supporting services program.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 4: LONG-TERM DEBT

Following is a summary of long-term debt transactions for the year ended June 30, 2016:

	Balances			Balances	
	<u>6/30/15</u>	<u>Additions</u>	<u>Payments</u>	<u>6/30/16</u>	<u>Due Within One Year</u>
Governmental Activities					
CSDC Loan	\$ 609,361	\$ -	\$ 90,496	\$ 518,865	\$ 518,865
Mile High Loan	500,000	-	-	500,000	500,000
District Loan	<u>379,157</u>	<u>-</u>	<u>126,386</u>	<u>252,771</u>	<u>126,386</u>
Total	<u>\$ 1,488,518</u>	<u>\$ -</u>	<u>\$ 216,882</u>	<u>\$ 1,271,636</u>	<u>\$ 1,145,251</u>

On April 6, 2011, the Corporation entered into a loan agreement with the Charter Schools Development Corporation (CSDC) in the amount of \$875,000. Proceeds of the loan were used to construct improvements to the School's building. Monthly payments of \$10,578 are required under the loan agreement, with a balloon payment representing all unpaid principal and interest due at maturity. Interest accrues at 6.5% per annum. The loan maturity date has been extended to September 30, 2016.

On July 9, 2014, the Corporation entered into a loan agreement with the Mile High Community Loan Fund (Mile High) in the amount of \$500,000. Loan proceeds were used for tenant improvements at the School's building. The Gates Family Foundation agreed to guarantee \$250,000 of the loan pursuant to a guaranty agreement with Mile High. Interest accrues on the outstanding balance of the loan at 7% per annum. Monthly interest-only payments are due through maturity. All principal and any accrued interest is due at maturity in September, 2016.

In April, 2015, the District loaned \$50,000 to the School and agreed to defer certain fees owed to the District. The School agreed to repay these amounts, totaling \$379,157, in monthly installments of \$10,532 from July 1, 2016, through June 30, 2018. The loan is non-interest bearing.

Future debt service requirements for the loans are as follows:

<u>Year Ended June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2017	\$ 1,145,251	\$ 15,724	\$ 1,160,975
2018	<u>126,385</u>	<u>-</u>	<u>126,385</u>
Total	<u>\$ 1,271,636</u>	<u>\$ 15,724</u>	<u>\$ 1,287,360</u>

NOTE 5: DEFINED BENEFIT PENSION PLAN**General Information**

Plan Description - The School contributes to the School Division Trust Fund (SDTF), a cost-sharing multiple-employer defined benefit pension plan administered by the Public Employees' Retirement Association of Colorado (PERA). All employees of the School participate in the SDTF. Title 24, Article 51 of the Colorado Revised Statutes (CRS) assigns the authority to establish and amend plan provisions to the State Legislature. PERA issues a publicly available financial report that includes information on the SDTF. That report may be obtained at www.copera.org/investments/pera-financial-reports.

Benefits Provided - The SDTF provides retirement, disability, and survivor benefits to plan participants or their beneficiaries. Retirement benefits are determined by the amount of service credit earned or purchased, highest average salary, the benefit structure in place, the benefit option selected at retirement, and age at retirement. The retirement benefit is the greater of the a) highest average salary multiplied by 2.5% and then multiplied by years of service credit, or b) the value of the participant's contribution account plus an equal match on the retirement date, annualized into a monthly amount based on life expectancy and other actuarial factors. In no case can the benefit amount exceed the highest average salary or the amount allowed by applicable federal regulations.

Retirees who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-of-living adjustments (COLAs) as established by State statutes. Retirees who began employment before January 1, 2007, receive an annual increase of 2%, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2% or the average consumer price index for the prior calendar year. Retirees that began employment after January 1, 2007, receive an annual increase of the lesser of 2% or the average consumer price index for the prior calendar year, with certain limitations.

Disability benefits are available for plan participants once they reach five years of earned service credit and meet the definition of a disability. The disability benefit amount is based on the retirement benefit formula described previously, considering a minimum of twenty years of service credit.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure in place, and the qualified survivor receiving the benefits.

Contributions - The School and eligible employees are required to contribute to the SDTF at rates established by Title 24, Article 51, Part 4 of the CRS. These contribution requirements are established and may be amended by the State Legislature. The contribution rate for employees is 8% of covered salaries. The School's contribution rate for calendar years 2015 and 2016 was 18.35% and 19.15% of covered salaries, respectively. However, a portion of the School's contribution (1.02% of covered salaries) is allocated to the Health Care Trust Fund (See Note 6). The School's contributions to the SDTF for the year ended June 30, 2016, were \$346,100, equal to the required contributions.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the School reported a net pension liability of \$6,059,445, representing its proportionate share of the net pension liability of the SDTF. The net pension liability was measured at December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2014. Changes in assumptions and other inputs since the prior measurement date did not significantly affect the total pension liability. Standard update procedures were used to roll forward the total pension liability to December 31, 2015. The School's proportion of the net pension liability was based on the School's contributions to the SDTF for the calendar year ended December 31, 2015, relative to the contributions of all participating employers. At December 31, 2015, the School's proportion was 0.0396189925%, which was a decrease of 0.0023296123% from its proportion measured at December 31, 2014.

For the year ended June 30, 2016, the School recognized pension expense of \$700,898. At June 30, 2016, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 80,016	\$ 268
Changes of assumptions and other inputs	-	85,631
Net difference between projected and actual earnings on plan investments	520,670	-
Changes in proportion	311,348	228,999
Contributions subsequent to the measurement date	<u>191,107</u>	<u>-</u>
Total	<u>\$ 1,103,141</u>	<u>\$ 314,898</u>

School contributions subsequent to the measurement date of \$191,107 will be recognized as a reduction of the net pension liability in the subsequent fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ended June 30,

2017	\$ 232,459
2018	177,562
2019	81,463
2020	<u>105,652</u>
Total	<u>\$ 597,136</u>

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)**

Actuarial Assumptions - The actuarial valuation as of December 31, 2014, determined the total pension liability using the following actuarial assumptions and other inputs, applied to all periods included in the measurement:

Price inflation	2.8%
Real wage growth	1.1%
Wage inflation	3.9%
Salary increases, including wage inflation	3.9% - 10.1%
Long-term investment rate of return, net of plan investment expenses, including price inflation	7.5%
Future post-retirement benefit increases:	
Hired prior to 1/1/07	2%
Hired after 12/31/06	ad hoc

Mortality rates were based on the RP-2000 Combined Mortality Table for Males and Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with males set back one year, and females set back two years.

The actuarial assumptions used in the December 31, 2013, valuation were based on the results of an actuarial experience study for the period January 1, 2008, through December 31, 2011, adopted by PERA's governing board on November 13, 2012, and an economic assumption study, adopted by PERA's governing board on November 15, 2013 and January 17, 2014.

The long-term expected rate of return on plan investments was determined using a log-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

The most recent analysis of the long-term expected rate of return was presented to the PERA governing board on November 15, 2013, and included the target allocation and best estimates of geometric real rates of return for each major asset class, as follows:

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 5: DEFINED BENEFIT PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Asset Class	Target Allocation	10 Year Expected Geometric Real Rate of Return
U.S. Equity - Large Cap	26.76%	5.00%
U.S. Equity - Small Cap	4.40%	5.19%
Non U.S. Equity - Developed	22.06%	5.29%
Non U.S. Equity - Emerging	6.24%	6.76%
Core Fixed Income	24.05%	0.98%
High Yield	1.53%	2.64%
Long Duration Government/Credit	0.53%	1.57%
Emerging Market Bonds	0.43%	3.04%
Real Estate	7.00%	5.09%
Private Equity	7.00%	7.15%
Total	100.00%	

Discount Rate - The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and the employer contributions will be made at the rates specified in State statutes, which currently require annual increases, to a total of 20.15% of covered salaries for the year ended December 31, 2018. When the actuarially determined funding ratio reaches 103%, the employer contribution rate will decrease 0.5% each year, to a minimum of 10.15%. Based on those assumptions, the SDTF's fiduciary net position was projected to be available to make all projected future benefit payments to current participants. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. In addition, the discount rate did not change from the prior measurement date.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the School's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as the School's proportionate share of the net pension liability if it were calculated using a discount that is one percentage point lower (6.5%) or one percentage point higher (8.5%) than the current rate, as follows:

	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
Proportionate share of the net pension liability	\$ 7,854,812	\$ 6,059,445	\$ 4,566,035

Pension Plan Fiduciary Net Position - Detailed information about the SDTF's fiduciary net position is available in PERA's separately issued financial report, which may be obtained at www.copera.org/investments/pera-financial-reports.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 6: POSTEMPLOYMENT HEALTHCARE BENEFITS

Plan Description - The School contributes to the Health Care Trust Fund (HCTF), a cost-sharing multiple-employer postemployment healthcare plan administered by the PERA. The HCTF provides a health care premium subsidy to PERA benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the CRS, as amended, assigns the authority to establish the HCTF benefit provisions to the State Legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the HCTF. That report may be obtained as described previously.

Funding Policy - The School is required to contribute at a rate of 1.02% of covered salaries for all PERA participants. No employee contributions are required. The contribution requirements for the School are established under Title 24, Article 51, Part 4 of the CRS, as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208 of the CRS, as amended. The School's apportionment to the HCTF for the years ended June 30, 2016, 2015 and 2014 was \$18,815, \$18,339 and \$15,554, respectively, equal to the required amounts for each year.

NOTE 7: COMMITMENTS AND CONTINGENCIES**Claims and Judgments**

The School participates in a number of federal and state programs that are fully or partially funded by revenues received from other governmental entities. Expenditures financed by these revenues are subject to audit by the appropriate government. If expenditures are disallowed due to noncompliance with program regulations, the School may be required to reimburse the other government. At June 30, 2016, significant amounts of related expenditures have not been audited but management believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the School.

Tabor Amendment

In November 1992, Colorado voters passed the Tabor Amendment to the State Constitution which limits state and local government taxing powers and imposes spending limitations. The Amendment is subject to many interpretations, but the School believes it is in substantial compliance with the Amendment. In accordance with the Amendment, the School has established an emergency reserve representing 3% of qualifying expenditures. At June 30, 2016, the District held \$120,000 on behalf of the School for this reserve. In addition, the reserve was reported as restricted fund balance in the General Fund, in the amount of \$131,000.

Special Education Reserve

The School's charter contract with the District required the School to deposit \$50,000 to a reserve account held by the District to be used for future legal costs related to the special education program. The contract also requires the School to contribute \$25,000 in each of the next two fiscal years to this reserve. At June 30, 2016, the special education reserve was reported in the financial statements as reserves held by Aurora Public Schools, in the amount of \$50,015.

NOTES TO FINANCIAL STATEMENTS

June 30, 2016

NOTE 7: COMMITMENTS AND CONTINGENCIES (Continued)**Operating Lease**

In March, 2015, the Corporation amended its lease agreement with the landlord of the School's building and play area. The agreement requires monthly rent payments through June 30, 2018. In addition, the agreement allows for two renewal terms of five years each. The lease agreement also requires the Corporation to pay a pro rata portion of certain operating costs. In conjunction, the School has approved an amended lease agreement with the Corporation with similar terms. During the year ended June 30, 2016, the School paid \$559,823 under this lease agreement.

Future minimum rent payments required by the agreements are as follows:

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2016

NOTE 1: SCHEDULE OF PROPORTIONATE SHARE OF THE NET PENSION LIABILITY AND CONTRIBUTIONS

The Public Employees' Retirement Association of Colorado School Division Trust Fund's net pension liability and associated amounts are measured annually at December 31, based on an actuarial valuation as of the previous December 31. The School's contributions and related ratios represent cash contributions and any related accruals that coincide with the School's fiscal year ending on June 30.

Changes in Assumptions and Other Inputs

For the year ended June 30, 2016, the total pension liability was determined by an actuarial valuation as of December 31, 2014. The following programming and methodology changes were made since the prior actuarial valuation as of December 31, 2013.

- Valuation of the full survivor benefit without any reduction for possible remarriage.
- Reflection of the employer match on separation benefits for all eligible years.
- Reflection of one year of service eligibility for survivor annuity benefit.
- Refinement of the 18 month annual increase timing.
- Refinements to directly value certain and life, modified cash refund and pop-up benefit forms.
- Recognition of merit salary increases in the first projection year.
- Elimination of the assumption that 35% of future disabled members elect to receive a refund.
- Removal of the negative value adjustment for liabilities associated with refunds of future terminating members.
- Adjustments to the timing of the normal cost and unfunded actuarial accrued liability payment calculations to reflect contributions throughout the year.

NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

A budget is adopted for the School on a basis consistent with generally accepted accounting principles.

Management submits to the Board of Directors a proposed budget for the fiscal year commencing the following July 1, for their approval. The budget includes proposed expenditures and the means of financing them.

Expenditures may not legally exceed appropriations at the fund level. Revisions that alter the total expenditures of any fund must be approved by the Board of Directors.

All appropriations lapse at fiscal year end.
